

Chromecast with Google TV (4K) and Chromecast Voice Remote

Where to find product information

This guide includes the basic safety guidelines in the printed Safety & Warranty booklet that comes enclosed with your Google Chromecast with Google TV (4K) and Chromecast Voice Remote. It also includes additional safety, regulatory, and warranty information about Chromecast and remote.

Warranty details for your country of purchase, including instructions for making a claim:

Safety Warnings

WARNING: HEALTH AND SAFETY INFORMATION; READ BEFORE USE TO REDUCE THE RISK OF PERSONAL INJURY, DISCOMFORT, PROPERTY DAMAGE, INCLUDING DAMAGE TO YOUR CHROMECAST AND REMOTE ACCESSORIES OR ANY CONNECTED DEVICES, AND OTHER POTENTIAL HAZARDS.

Handling

Handle your Chromecast with Google TV (4K) and Chromecast Voice Remote with care. You may damage the device and included alkaline AAA batteries or accessories if you disassemble, drop, bend, burn, crush or puncture your device. Do not use a Chromecast and remote with a damaged enclosure. Using a damaged Chromecast and remote may cause overheating or injury. Do not expose your Chromecast and remote to liquids, which can cause a short circuit and overheating. If your Chromecast and remote gets wet, do not attempt to dry it using an external heat source.

Chromecast and remote is designed to operate in a dry, indoor environment. Your Chromecast and remote is designed to work best in ambient temperatures between 32° and 104° F (0° and 40° C), and should be stored between ambient temperatures of -4° and 113° F (-20° and 45° C). Do not expose your Chromecast and remote to temperatures above 113° F (45° C), such as near a heating vent, as this may damage the Chromecast and remote, overheat the batteries, or pose a risk of fire. Keep your Chromecast and remote away from heat sources and out of direct sunlight. If your device becomes too hot, disconnect it from its power source if it is plugged in, move it to a cooler

place and do not use it until it has cooled. Your Chromecast and remote is designed to work best at an altitude of up to 6561 ft (2,000 m).

Use of your Chromecast in certain modes, such as gaming, can cause it to generate more heat than it would under normal operating conditions. This may cause your Chromecast to operate in a reduced-power mode or temporarily shut down. Use extra care when operating the device in these modes. For more information on risks associated with prolonged heat exposure, please refer to the Prolonged Heat Exposure section below.

Repair & Service

Do not attempt to repair your Chromecast and remote yourself. Disassembling the device may cause injury or damage to your device.

Contact customer service if Chromecast and remote isn't working properly or has been damaged. For online help and support, visit g.co/cast/help.

Powering

Be sure the power adapter and Chromecast are well ventilated when in use. Using damaged cables, power adapters, or powering when moisture is present, can cause fire, electric shock, injury, or damage to the Chromecast or other property. Do not power your Chromecast when it's wet. Avoid powering your device in direct sunlight.

This Chromecast comes with an AC adapter that has proper certifications. This Chromecast must be used with an AC adapter that has been certified with a Limited Power Source output per IEC 60950-1 and/or classified PS2 per IEC 62368-1 rated: 5V DC, maximum 1.5 Amp.

When powering the Chromecast, make sure the power adapter is plugged into a power outlet near the device and is easily accessible. When disconnecting the power adapter from a power outlet, pull on the adapter, never on the charging cable. Do not twist or pinch the cable, and do not force a connector into a port. If you receive a message while powering that instructs you to unplug the power adapter, disconnect the power adapter. Before attempting to power up again, make sure both the power adapter cable connector and the device's input power port are dry and clear of any objects.

Only power your Chromecast with the included power adapter and cable, a USB-C power adapter or compatible accessories available on the Google Store and at Google authorized resellers (look for Google's "made for" badge). Failure to use compatible accessories can cause fire, electric shock, injury, or damage to the device and the accessories.

Prolonged Heat Exposure

The Chromecast and its power adapter generate heat during normal operation and comply with applicable surface temperature standards and limits. Avoid prolonged skin contact when the device is in use or powering because exposing skin to hot surfaces for a long period of time may cause discomfort or burns. Do not sleep on or with your device or its power adapter, or cover them with a blanket or pillow. Be aware of this issue if you have a physical condition that affects your ability to detect heat against your skin.

Child Safety

This device is not a toy. Your Chromecast and remote may contain (or may come with) small parts, plastic or metal elements, and parts with sharp edges that may cause an injury or create a choking hazard. Children have strangled on cords and cables. Keep the Chromecast's cords and cables out of the reach of children (more than 3 feet / 1 meter away) and do not allow them to play with the Chromecast and remote and its accessories. They could hurt themselves or others, or could accidentally damage the product.

Battery

This Chromecast remote contains alkaline AAA batteries which are sensitive components that can cause injury if damaged or ingested. Keep away from children. These batteries are hazardous to young children. If ingested, seek medical attention immediately. Swallowing may lead to serious injury in as little as 2 hours or death, due to chemical burns and potential perforations of the esophagus. If you suspect your child has swallowed or inserted the battery, immediately call your local poison control center. Examine the remote and make sure the battery compartment is correctly secured. Dispose of AAA batteries immediately and safely.

Only use a battery for the Chromecast remote for which it is specified. Use of an unqualified and/or damaged battery or improper disposal may present a risk of fire, explosion, leakage and/or other hazards. Do not modify or remanufacture/refurbish the battery, puncture or attempt to insert objects into the battery, immerse or expose the battery to water or other liquids, or expose the battery to fire, excessive heat, and/or other hazards. Do not attempt to recharge an alkaline battery. Replace all batteries at the same time, do not reuse any old batteries. For best results, use AAA batteries rated 1.5V. Do not use lithium ion or any other batteries rated above 1.5V. Do not short circuit the battery or allow metallic or conductive objects to contact the battery terminals. Avoid dropping the Chromecast remote or battery. If the Chromecast remote or battery is dropped, especially on a hard surface, and you suspect or observe damage, contact Google or a Google authorized service provider for inspection. If the battery leaks, do not allow the leaking fluid to come into contact with eyes, skin, or clothing. If the fluid is already in contact with the eyes, do not rub them. Rinse the eyes with clean water immediately and seek medical advice.

Models: G454V / G9N9N (Voice Remote)

Battery Model ID: LR03

Do not modify or remanufacture/refurbish the battery, puncture or attempt to insert objects into the battery, immerse or expose the battery to water or other liquids, or expose the battery to fire, excessive heat, and/or other hazards.

Disposal, Transportation & Recycling

Dispose of and transport your device, batteries and accessories according to local environmental and transportation regulations. Do not improperly transport them or dispose of them in normal household waste. Improper disposal or transport may lead to fire, explosion, and/or other hazards. Do not open, crush, heat above 113 °F (45 °C), or incinerate. For more information on recycling your device, batteries and accessories, visit [g.co/HWRecyclingProgram](https://www.google.com/hwrecycling).

Radio Frequency Exposure

This device has been evaluated and meets the applicable regulatory requirements for exposure to radio waves and is designed and manufactured not to exceed the applicable emission limits for exposure to radio frequency (RF) energy.

You can find additional information about SAR at the following pages:

- [fcc.gov](https://www.fcc.gov)
- [icnirp.org](https://www.icnirp.org)
- ec.europa.eu

- [dot.gov.in](https://www.fcc.gov/dot.gov.in)

Chromecast has been evaluated and meets the applicable regulatory requirements for exposure to radio waves and is designed and manufactured not to exceed the permissible radio frequency (RF) exposure limits. To comply with applicable RF exposure compliance requirements, a distance of at least 20 cm should be maintained between the antenna of this device and persons during device operation.

Chromecast Voice Remote has been evaluated and meets the applicable regulatory requirements for exposure to radio waves and is designed and manufactured not to exceed the applicable emission limits for exposure to radio frequency (RF) energy.

Radio Frequency Interference

Observe rules that prohibit the use of wireless technology (e.g. cellular or Wi-Fi). Your device is designed to comply with regulations governing radio frequency emissions but use of wireless devices can negatively affect other electronic equipment. For example, while flying in an aircraft or immediately before boarding, use your wireless device only according to instructions provided by the airline. Use of a wireless device in an aircraft may disrupt wireless networks, present a hazard to aircraft operation, or be illegal. You may be able to use your device in airplane mode.

Musculoskeletal Disorders

Repetitive activities, such as tapping the buttons of your Chromecast remote, may cause discomfort in your fingers, hands, wrists, arms, shoulders, or other parts of your body. If you experience any discomfort from such activities, stop using your Chromecast remote and consult with your doctor.

Proper Handling and Usage

Follow these guidelines when using, storing or cleaning of your Chromecast and remote:

Operating Temperature

Do not use the Chromecast and remote and power adapter at ambient temperatures lower than 0°C (32°F) or higher than 40°C (104°F). If the interior temperature of the device exceeds normal operating temperatures, you may experience the following behaviors while the device tries to regulate its temperature: reduced performance and connectivity, inability to power on or device power down. You may not be able to use the device while it regulates its temperature. Move the device to a cooler (or warmer) location and wait a few minutes before attempting to use it again.

Care & Cleaning

Unplug the Chromecast and its power adapter before cleaning, during lightning storms, or when unused for extended periods of time. Do not clean your Chromecast while it is powered as this may cause injury or damage to your device. Avoid solvent and abrasive material that may cause damage to the product surface. Do not use any chemical detergent, powder, or other chemical agents (such as benzene) to clean the Chromecast or accessories.

To disinfect your Chromecast and remote, you can use ordinary household disinfecting wipes or 70% isopropyl alcohol-based wipes. Do not use wipes that have bleach.

Water Resistance

Do not expose your Chromecast and remote to liquids, which can cause a short circuit and overheating. The Chromecast power adapter and other accessories are not water resistant and should not be exposed to liquids.

Service & Support

Unauthorized repairs or modifications could result in permanent damage to the device, and may affect your warranty coverage and regulatory authorizations. Chromecast and remote should only

be repaired by Google or a Google authorized service provider. Contact customer service for authorized service. For online help and support, visit g.co/cast/help.

For customer service, call 1800 723 841 (in Australia) or 08 0078 7790 (in New Zealand). If you send your Chromecast or remote in for service, you might receive a replacement in place of your original device. Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods. If the goods are capable of retaining user-generated data then the repair or replacement may result in loss of the data.

Regulatory Information

Regulatory information, certification, and compliance marks specific to Chromecast and remote can be found on your device.

EMC Compliance Statement

Important: This device and its power adapter have demonstrated Electromagnetic Compatibility (EMC) compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

Regulatory Information: United States

FCC Regulatory Compliance

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or TV technician for help.

Changes or modifications not expressly approved by Google could void your authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following 2 conditions:

1. These devices may not cause harmful interference.
2. These devices must accept any interference received, including interference that may cause undesired operation.

GZRNL (Chromecast with Google TV (4K))

G9N9N (Google Chromecast Voice Remote)

Product name: Chromecast with Google TV (4K) and Google Chromecast Voice Remote

Regulatory Information: Canada

Industry Canada, Class B

This device complies with ICES-003 Class B limits.

Chromecast and remote complies with ISSED license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISDE Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device for operation in the band 5,150–5,250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Les dispositifs fonctionnant dans la bande de 5,150 à 5,250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

Regulatory Information: EU

EU Compliance Notice

Hereby, Google LLC declares that radio equipment type: Chromecast and Chromecast Voice Remote are in compliance with Directive 2014/53/EU (Radio Equipment Directive). The full declaration of conformity may be found at g.co/nest/conformity.

For Chromecast, Restrictions or Requirements under Directive 2014/53/EU

The device is restricted to indoor use only when operating in the 5,150 to 5,350 MHz frequency range in AT, BE, BG, CY, CZ, DE, DK, EE, EL, ES, FI, FR, HR, HU, IE, IT, LT, LU, LV, MT, NL, PL, PT, RO, SE, SI, SK, UK(NI), CH, IS, LI, NO, TR.

Frequency Bands and Power

European Union, United Kingdom

Data given here is the maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates.

Chromecast:

The maximum radio-frequency power transmitted:

2,400–2,483.5 MHz, less than 20 dBm EIRP

5,150–5,250 MHz, less than 20 dBm EIRP

5,250–5,350 MHz, less than 20 dBm EIRP

5,470–5,725 MHz, less than 20 dBm EIRP

Chromecast Voice Remote:

The maximum radio-frequency power transmitted:

2,400–2,483.5 MHz, less than 10 dBm EIRP

Radio frequency interference

Google is not responsible for any radio or television interference caused by unauthorized modification of these devices or accessories, or by the substitution or attachment of connecting cables and equipment other than that specified by Google. The correction of interference caused by such unauthorized modification, substitution or attachment is the responsibility of the user. Google and its authorized resellers or distributors are not liable for any damage or violation of government regulations that may arise from the user failing to comply with these guidelines.

Waste Electrical and Electronic Equipment (WEEE) Directive and Battery Directive

The WEEE symbol above means that according to local laws and regulations your product and its battery(ies) should be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities for safe disposal or recycling. The separate collection and recycling of your product, its electrical accessories, and its battery(ies) will help conserve natural resources, protect human health, and help the environment.
